

## Tape and Dispenser Products

These fabrics are combined using one or several adhesive layers or a dispenser tape. We provide dirt and moisture protective products, shock absorbing, surface protecting and sealing materials and shielding components.

### Product Features

#### Tape and Dispenser Products

These products are made by combining fabrics, foils or films with one or several adhesive layers. Alternatively a combination using a dispenser tape is also possible.

#### Product forms

- The pieces are cold- or laser-stamped into single rings or customer specific shapes
- Laser stamped parts can be supplied having a max. dimension of 245 x 245 mm
- Cold stamped parts can be supplied having a max. dimension of 120 x 120 mm
- Adhesive components can be supplied having a one- or double-sided adhesive layer
- Can also be supplied on a dispenser tape without any adhesive backing
